

## Communication and Language

We will continue to develop our listening skills to help us to follow simple instructions.

We will be learning to listen to our friends both on a 1:1 basis and as part of a small group.

## Personal, Social and Emotional Development

We will be revisiting our class rules and talking about why they are important. We will be thinking about how to be a kind friend by sharing and caring with others.

# Nursery Spring 2026

## Mathematics

We will be practising careful counting by saying one number name for each object counted; extending our counting beyond five. We will be exploring how to make a repeating pattern using colour and objects. We will be comparing quantities using language of 'more than', 'fewer than'.

## Understanding the World

We will be exploring materials and talking about their differences; we will use our new knowledge to conduct experiences with water, heat and ice. We will learn about hot and cold countries.

## Literacy

We will be listening to longer stories and will be talking about the events, characters and describing the setting of the story. We will be clapping syllables in words and recognising words with the same initial sound.

We will be learning the names of parts of books and what the print means.

We will be learning to write the first letter of our names.

## Expressive Art and Design

We will be drawing closed shapes and beginning to use these shapes to represent objects.

We will be singing songs to express our ideas and exploring playing musical instruments with increasing control.

## Mathematics

We will be practising careful counting by saying one number name for each object counted; extending our counting beyond five. We will be exploring how to make a repeating pattern using colour and objects. We will be comparing quantities using language of 'more than', 'fewer than'.

## Physical Development

We shall be continuing to develop movement, balance and ball skills. We will be exploring large muscle movements to help support with the development of fine motor skills for mark making and cutting activities.
